

# **DSK-50 Drum Throne Bass Shaker**

*"One of the best products I've seen in years  
for serious drummers. It kicked my butt."*

**Rick Allen – Drummer, Def Leopard**

## **Features:**

- Aura's patented actuator technology
- Patented, high-power dual voice coil, dual magnet
- High efficiency heat sink
- Universal quick-release bracket

Aura is pleased to introduce the DSK-50 Drum Throne Bass Shaker to its award-winning pro products line-up. The DSK-50 utilizes the patented Aura Bass Shaker which is a highly efficient actuator which converts sound into energy that can be felt. The unique Bass Shaker application is on tour with some of the hottest recording artists and bands.

The DSK-50 provides the acoustic/electronic drummer with the ability to integrate the important dimension of "feel" at the drum throne position with the impact and low frequency resonances of the bass drum. Additionally, the new Drum Throne Bass Shaker enables the user to monitor a band mix signal while at the same time adding the desired Bass Shaker impact.

The DSK-50 attaches to the center pole of virtually all drum throne currently manufactured today.
