

Madisound Presents Sledgling

The Sledgling is the best little bookshelf speaker kit on the market today. This kit gives you the quality sound of commercially produced speaker at a fraction of the price. The Sledgling speaker is small enough to fit unobtrusively in any den or be used as a rear channel speaker in a four channel audio or video system. We chose a high quality six and one half inch polypropylene woofer and a Vifa treated textile dome tweeter with ferrofluid for a very clean sound. We have utilized the best possible components in the crossover network with Sidewinder coils and Chateauroux Metallized Polypropylene capacitors on an epoxy circuit board.

The kit is designed to be as easy as possible to assemble. The cabinet is already finished. The holes for the drivers and the input cup are pre-cut; the crossover is preassembled, and the grill cloth is stretched on the frame.

Specifications

Impedance	4 Ω or 8 Ω
Sensitivity	89 DB
Power Rating	50 Watts
Freq. Range	65 - 18000 HZ +/- 2db
