

# RPM *plus* 10 / 12

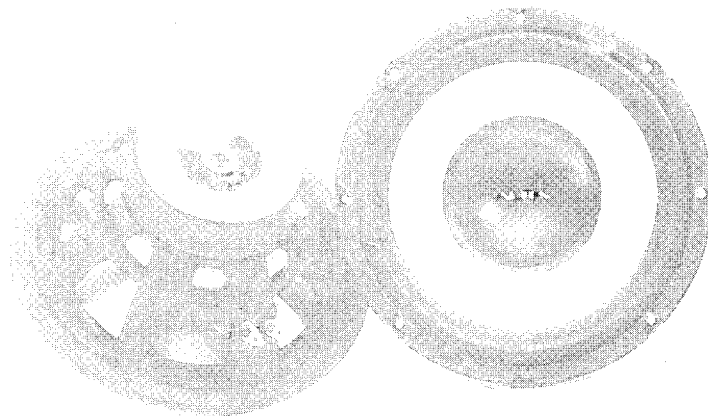

## Subwoofers

AuraSound is proud to introduce the newest addition to their RPM line of mobile speakers, amplifiers and subwoofers. The **RPM** *plus* **Subwoofer**.

*Beyond Red Line*

AuraSound's **RPM** *plus* **Subwoofer** line feature cast aluminum frames, high tensile strength alloy cones and oversized top plates. Combined with a four layer voice coil for higher power handling, and an oversized butyl surround to enhance excursion, these subs have all the pluses the competition user demands. Based on our successful line of Force subwoofers the **RPM** *plus* subwoofers go the next level. Designed for use in small sealed or vented enclosures, the versatility of these subwoofers make them great performers plus a great value, outperforming subwoofers that cost significantly more.

### Features include:

- ◆ Custom die cast aluminum frame for strong and damped mounting.
  - ▲ Vented basket for better voice coil cooling
- ◆ High tensile strength alloy cones
  - ▲ Low mass, high stiffness
  - ▲ Inherent voice coil heat dissipation
  - ▲ Reduced cone flexing
- ◆ Oversized top plate
- ◆ Machine finished pole piece
- ◆ Spring compression gold plated connectors
- ◆ Jacketed leads
- ◆ 4 layer fiber composite voice coil
- ◆ Optimized use in small vented, sealed or bandpass enclosures.

# SPECIFICATIONS

## RPM plus 10

Power handling: 300 watts RMS  
600 watts maximum

Aluminum cone  
65 oz. double stacked magnet  
Vas: 50.7 liters  
Qts: .35  
Fs: 27.2 Hz  
Xmax: 13 mm

## RPM plus 12

Power handling: 350 watts RMS  
700 watts maximum

Aluminum cone  
65 oz. double stacked magnet  
Vas: 130 liters  
Qts: .37  
Fs: 21.7 Hz  
Xmax: 14 mm
